

# THE ROLE OF EARLY RECHECKS IN PPID MANAGEMENT

The best time to adjust treatment is early. For horses on PRASCEND® (pergolide tablets), a PPID recheck within 2–6 months of diagnosis is an important part of PPID management. This gives you an earlier chance to manage changes to treatment, helping the horse receive more consistent support sooner.

## WHY YOU SHOULD RECHECK:

### IDENTIFY TREATMENT CHALLENGES EARLY

Determine whether the horse is responding as expected and identify factors that may be limiting treatment success, including administration challenges, compliance gaps, weight changes, or concurrent disease.

### ESTABLISH NEXT STEPS

Determine whether treatment adjustments are needed, align on follow-up expectations and schedule the next recheck.

### KEEP PPID PATIENTS ON TRACK

Reinforce continuity of care through simplified follow-up diagnostics.

## EARLY MONITORING STARTS WITH THE IDPPID RECHECK PROGRAM

Boehringer Ingelheim covers the cost of one recheck for eligible PRASCEND patients, including ACTH, glucose and insulin levels, with prepaid UPS shipping to the Cornell University Animal Health Diagnostic Center, and results posted to your dashboard once processed.

## READY TO RECHECK?

Enroll eligible patients:  
**IDPPID.com**

Learn more about PRASCEND:  
**PRASCEND.com**

**IMPORTANT SAFETY INFORMATION:** PRASCEND treatment may cause loss of appetite. Most cases are mild. Adverse reactions may occur if animals other than horses ingest PRASCEND tablets. Not for human use. Do not ingest the product. Refer to the package insert for complete product information.

# USING THE IDPPID RECHECK PROGRAM

1

## CONFIRM ELIGIBILITY

Horses diagnosed through the IDPPID program starting in spring 2026 or later who are currently being treated with PRASCEND tablets **may be eligible for recheck testing within six months of initial diagnosis.**

2

## SCHEDULE A RECHECK

Recheck is open year-round for eligible horses through the online portal at **IDPPID.com**. A Cornell submission form and prepaid UPS shipping label are generated and emailed to you.

3

## SHIP THE SAMPLE

Mail the plasma sample to Cornell using the prepaid mailer from IDPPID.

4

## REVIEW RESULTS

Once processed, results will be posted to your **IDPPID.com** dashboard.
